Disclaimer

All contributions on this presentation are for information and training purposes only. Unless otherwise indicated, they have been prepared by Patrick Pfister ("the author") and are intended exclusively for the participants of this presentation.

This presentation does not take into account any specific investment objectives, financial situation or special needs of the recipient. It is for informational and educational purposes only and should not be construed as an offer or solicitation of an offer to purchase any securities or financial instruments, nor does it or anything contained herein form the basis of any contract or commitment.

The securities or financial instruments presented may not be suitable as an investment instrument for every recipient. The purchase of these instruments may be considered risky. It is therefore strongly advised to obtain independent advice from investment or tax advisors and to read the risk warnings in the Sales Prospectus carefully. Any product-specific information contained herein is based on information taken from the Sales Prospectus. However, only the Sales Prospectus is legally binding. The information material should therefore only be read in conjunction with this sales prospectus. The information contained herein is based on sources that the author considers reliable. However, the author cannot guarantee their accuracy and completeness.

The author is not responsible for any consequences, in particular for any losses which result or will result from the use or failure to use the opinions and conclusions contained in these contributions.

The value of the investment to which contributions in this presentation refer may fall or rise either directly or indirectly against the interests of the investor. If an investment is made in or based on a currency that is different from the currency to which these contributions relate, exchange rate fluctuations may have an adverse effect on the value, price and performance of the investment. Past prices and exchange rate developments do not provide any indication of the future performance of the investment. The author does not guarantee that the implied expected return or any stated price targets will be achieved. Changes in the relevant assumptions on which these contributions are based may have a material impact on the expected returns. Investment income is subject to market risks.
